Windows 7 PPTP SETUP:

1. Enter the controlpanel from the start menu. Open the Open Network and Sharing Center and choose set up a new connection or network.

2. Choose Connect to a workplace and click Next.
3. Choose Use my Internet connection (VPN).

Note: If prompted for "Do you want to use a connection that you already have?", select No, create a new connection and click Next.

4. In the field Internet address, type: se-pptp.vpntunnel.com
   In the field Destination name, type: vpntunnel.com
   Then press Next.
5. Here you enter the VPNTunnel login details that you have received by E-mail from us, then click create.

![Create Login Details]

6. Now the setup is finished. Choose “Connect now” to connect to the tunnel, or choose “Close” to return to the “Network and internet” screen.

![Connect to Tunnel]

VPNTunnel anonymous internet
7. In the Network and internet screen, you should be able to locate the connection that you just created under Connect to a network.
