4. You will see "Installation succeeded". Click "Launch":

5. In next window click "I have configuration files":

SV2NC	Welcome to Tunnelblick	
	There are no VPN configurations installed.	
	Tunnelblick needs one or more installed configurations to connect to a VPN. Configurations are installed from files that are usually supplied to you by your network manager or VPN service provider. The files must be installed to be used.	
	Configuration files have extensions of .tblk, .ovpn, or .conf.	
	(There may be other files associated with the configuration that have other extensions; ignore them for now.)	
	Do you have any configuration files?	
	Quit I DO NOT have configuration files I have configuration files	

6. Select "OpenVPN Configuration(s)"

7. You will see following instruction:

If the client ask, do not automatically update the software:

2425	New Feature
A	Tunnelblick can check that the apparent public IP address of your computer changes when you connect to a VPN, and warn you if it doesn't.
	This may help Tunnelblick diagnose problems with your connection.
	This process attempts to access www.tunnelblick.net
	Do you wish to check for this IP address change?

Follow this instruction and click "Done":

- 7.1. Copy OpenVPN configuration file (.ovpn or .conf) into the "Empty Tunnelblick VPN Configuration" folder on the Desktop. You can get configuration files from your client area on our <u>site</u>. Select one configuration file!
- 7.2. Copy key and/or certificates into the folder.
- 7.3. Rename the folder:

7.4. Add an extension of .tblk to the end of the name of the folder:

7.5. Double-click the folder to install:

	Install Configuration For All Users? Do you wish to install the 'Vpntunnel OpenVPN Germany' configuration so that all users can use it, or so that only you can use it?
